2. In a telephone conversation with Steve Berry earlier on Friday, I was told that some of the staffers were upset that the report was not made available to them as soon as it was published. I explained to Steve Berry that the report was dated on 8 June, which was the day that [REDACTED] in fact, finished it. I also explained that the report had to be routed through several levels of the Agency and was, indeed, not approved for reading by anybody outside the Agency. Three SSCI staffers and Tom Latimer read the report the first day it was available. Mr. Berry asked for access to the report, but said he probably would not be able to get to it until after the recess started. Berry said Giza would be reading the report and would brief him on its contents. If he felt it was necessary, he would ask that it be made available for him to read. I assured him that he could see it at anytime [REDACTED]
